Getting to Know your ASUS Tablet

FREQUENTLY ASKED QUESTIONS:

- **How do I turn my tablet on?**
  Hold down the Power button for a minimum of 3 to 10 seconds. Once the small white light comes on it will blink off again then the start will appear.

- **How do I connect to my Wi-Fi at home?**
  *See attached tutorials*

- **Can the tablet be used even if I don’t have Wi-Fi at home?**
  Yes. *See “Setting up Wi-Fi at Home” Tutorial attached*

- **How do I turn the device off?**
  Go to the start menu, click on the Power icon, tap Shut down. When you shut the device down, you will get a black screen, after the black screen appears, it will take approximately 20 seconds for the device to completely turn off.

- **What do I do if my tablet freezes?**
  Hold the power button down for at least 20 seconds to power down the device. Wait one (1) minute then turn the device back on.

- **How do I disconnect the keyboard?**
  Press the silver button in the middle of the keyboard and gently pull the tablet screen up

- **Troubleshooting Power Issues:**
  1. The unit will not power on if the battery does not have at least 3% charge in it. If you press the power button for 3 seconds and the unit does not power on or show a small white light on the top center of the screen (near camera) that means that the unit has no charge. You will need to Plug the unit to the charger and let charge for a minimum of 15 minutes to get a 5% charge.
  2. Make sure the amber light near the power button is lit to show that the unit is charging. If the unit is plugged in and there is no light near the power button the unit will not charge.
  3. If you press the power button and the unit has less than 3% charge the unit will not power on but will show a battery symbol on the center of the screen indicating that the unit is charging and needs more time to charge.

- **Troubleshooting Wi-Fi Issues:**
  - **Wi-Fi connection is available.** If you are on school grounds, please wait until connection is fully connected. If you are not on school grounds, please choose your Wi-Fi network
  - **Wireless is connected with limited connectivity.** Please wait until connected or reboot the device.
  - **Wi-Fi is connected**
  - **No Wi-Fi connection.** Please turn on Wi-Fi and reboot.
Top & Back View

1. **Front camera**: The built-in front camera allows you to take pictures or record videos using your Notebook PC.

2. **Camera indicator**: The camera indicator lights up when the built-in camera is in use.

3. **Ambient light sensor**: The ambient light sensor detects the amount of ambient light in your environment. It allows the system to automatically adjust the brightness of the display depending on the ambient light condition.

4. **Touch screen panel**: This high-definition touch screen panel provides excellent viewing features for photos, videos and other multimedia files on your Notebook PC. It also allows you to operate your Notebook PC using touch gestures.

5. **MicroSD card slot**: The tablet comes with a built-in memory card reader slot that supports microSD, microSDHC, and microSDXC card formats.

6. **Audio speakers**: The built-in audio speaker allows you to hear audio straight from the Notebook PC. The audio features of this Notebook PC are software-controlled.

7. **Micro USB 2.0 port**: Use the micro USB port 2.0 to charge or supply power to your Notebook PC.

8. **Micro HDMI port**: This port is for a micro HDMI connector and is HDCP compliant for HD DVD.

9. **Headphone output/Microphone input combo jack port**: This port allows you to connect to either amplified speakers or headphones. You can also use this port to connect to an external microphone.

10. **Microphone**: The built-in microphone can be used for voice narrations or simple audio recording.

11. **Battery charge indicator**: This two-color LED provides a visual indication of the battery’s charge status.

   - White: Fully Charged
   - Orange: Charging Mode
   - OFF: The tablet is not plugged into a power source

12. **Power Button**: Press the power button to turn the tablet on, put it into sleep mode and wake up from sleep mode.

13. **Volume button**: Increase and decrease the volume level on the Tablet.

14. **Windows button**: Press this button to go back to Start screen. If you are already in the Start screen, press this button to go back to the last app you opened.

Bottom View

17. **Dock port**: Connect the mobile dock to this port to support keyboard, touchpad and USB 3 functions.

18. **Hinge holes**: Align and insert the latch hooks into these holes to securely attach the tablet to the mobile dock.
